A single source of truth that's updated instantly

Gain a complete top to bottom understanding of the entire portfolio and what it's delivering. Benefit from everything you need to identify and prioritize what's needed to move projects forward

Core Strengths

Visibility
A single source of truth to view, analyze, and report through, using multiple 'lenses'

Control
Allowing you to quality assure, govern, and improve upon existing processes and practices

Efficiency
In the form of always live data, streamlined reporting and a full suite of project / portfolio management tools

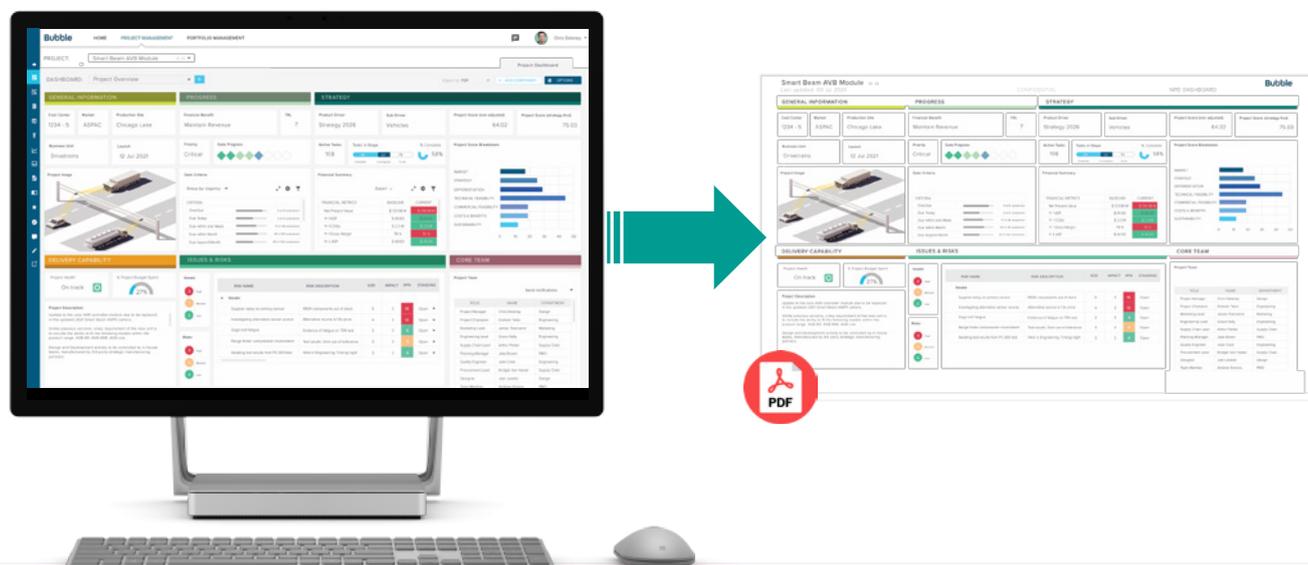

Figure 1: Transforms the way you access and distribute critical information.
With powerful visualisation and reporting tools, Bubble PPM eliminates the need for bespoke presentations s. 1-Click and ad-hoc reports can be created in seconds.

Embed and automate your proven processes and best-practices

Created from the ground up, and shaped by 20+ years experience, Bubble® PPM makes it easy to integrate whatever processes matter most to your organization

GATE NOTES

Keep an eye on the big picture as well as the detail

Built by genuine Project and Portfolio Management experts, Bubble®
put end-user needs at the heart of everything we do
Time-saving benefits

⊙ Strategy

◎ Complete

- Get the enterprise view of your strategy in action
- Balance risks and opportunities
- Plan your portfolio investment strategy
- Consider 'What-if' scenarios before making big decisions
- Set portfolio and organizational priorities in one place
- Communicate your vision across the organization

⟪⟫ Portfolios

☐ Not set

- Strengthen project governance
- Create transparency
- Connect strategy and delivery
- Keep all projects/programs on track
- Audit progress and continuosly improve
- Build and share custom reports

✔ Projects

◎ At risk

- See all projects in one place
- Know all of your priorities
- Stay up-to-date in real-time
- Focus on what's 'still to be done'
- Stay on track to deliver on time and on budget
- Easily report on actions and achievements

⅄ Resources

◎ Off track

- See precisely who is working on what
- Anticipate and address resource and bottlenecks in advance
- Know where the pressure points are
- Understand future resource requirements
- Re-assign people when circumstances change
- Align delivery priorities across your organization

Sample screenshots

Intuitive, highly configurable views, means everyone knows what needs doing, when and by whom

Automatically collate, synchronize, and output complex data in informative ways.

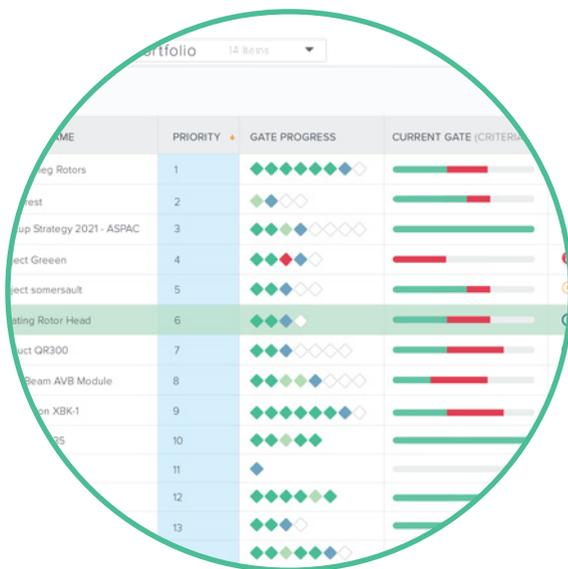

Fig. 2: Prioritise projects by portfolio or other factors. Users then automatically see the highest priority projects (and associated tasks) first.

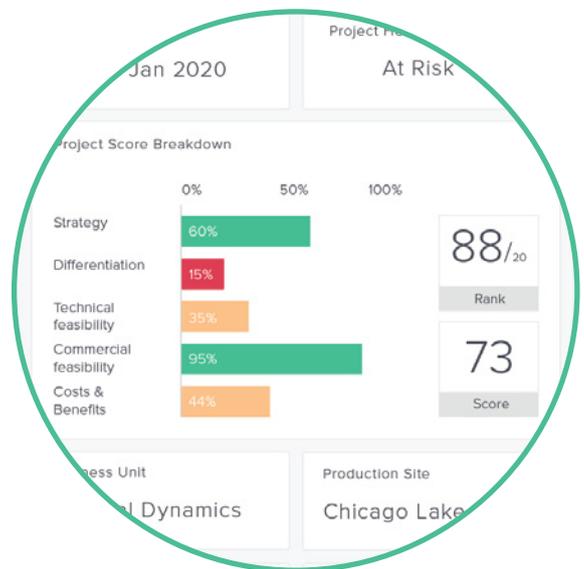

Fig. 3: Evaluate, compare and rank early stage projects on equal terms, even before you have any hard numbers in place

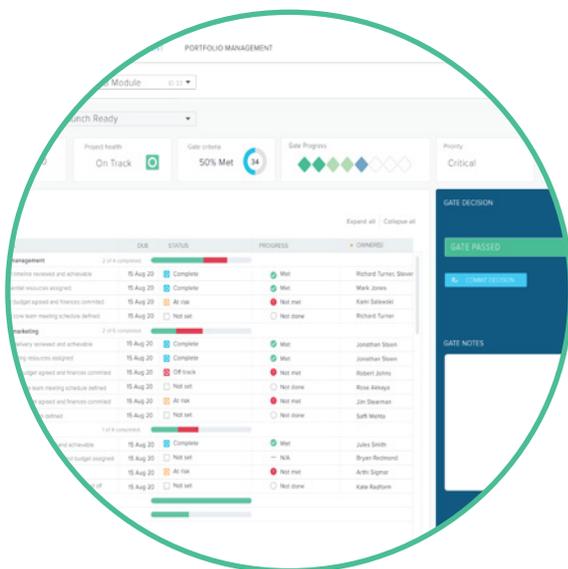

Fig. 4: Quality assure and control project & process management with Governance and other dashboards.

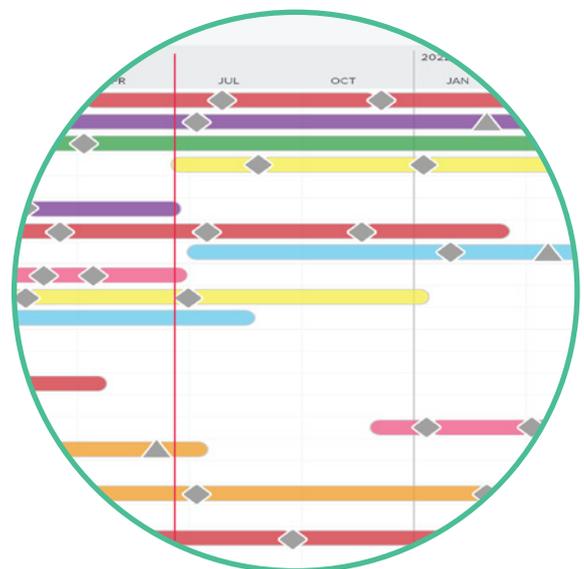

Fig. 5: Shape your portfolio to balance risks, optimize launch timings, and ensure all parts of your business are being sufficiently supported by your development teams.

Fig. 6: Optimize your portfolio with scenario planning and view all the critical data about your project using comprehensive portfolio dashboards.

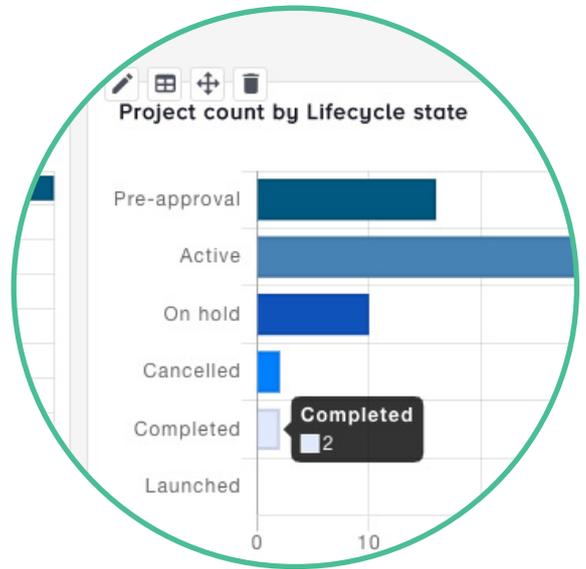

Fig. 7: Maintain control through real-time metrics.

Fig. 8: Build in as many check-points as you need for different project types and define gates with pre-set criteria according to function or work-stream.

Fig. 9: Keep up-to-date with looming deadlines through your own personalized My Projects and My To-Do lists pages.

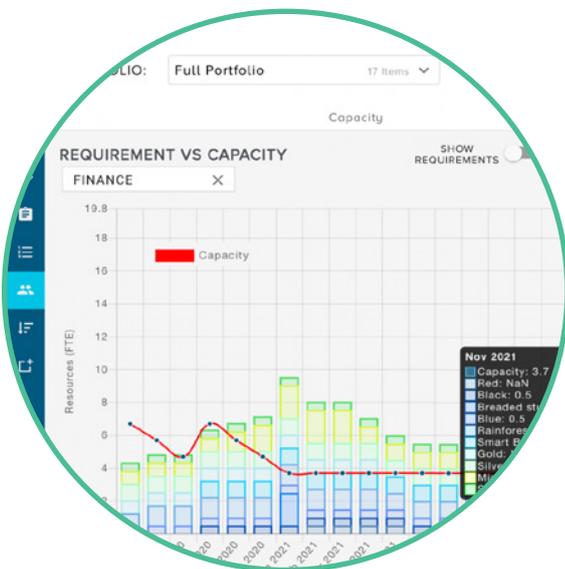

Fig. 10: Avoid bottlenecks by balancing workload.

Fig. 11: Create Bubble charts to map multiple project attributes at the portfolio level.

Class-leading training, support, and infrastructure

Our in-house technical support and training teams are committed to ensuring prompt resolutions to questions long after your initial deployment is complete

A customer first approach

Putting customers at the heart of our business extends to our client support philosophy.

We aim to provide outstanding technical and user support that exceeds all our clients' expectations. These include:

- On / Off-line training and support materials.
- Quick start guides.
- Help sheets and 'How-To' guides.
- Dedicated online Help Site.
- Issue ticket system.
- Live Help Desk (Weekdays).
- Dedicated Account Manager.

Bubble PPM also has all the safety, support and security considerations you'd expect of an enterprise platform.

Fig.12. Our Training and Implementation activities benefit from a range of on and off-line training support materials such as Video training, Quick Start Guides and Help Sheets (see above/below)

Our cloud-based service benefits from greater than 99.9% uptime, industry-standard encryption and backups, disaster recovery, and redundancy architecture to ensure data security and continuity.
